

The workstation components shown on this page are pre-configured to include our most popular and versatile Arlink 8000 workstation styles. To design a custom workstation to suit your exact needs, see pages 20-21.

Arlink 8000 workstations consist of a starter section, and as many adder sections as you need for your application.

Select from single- or double-sided starters, adders, or corners in all standard section widths and heights. You may also choose either 28" - or 30" - deep worksurfaces in either plastic laminate or static dissipative laminate. Easy-Order sections include all accessories shown in the charts to the right. To order additional accessories, please see pages 22-28.
