Lista Selection Xpress Delivery Program Storage and Workspace Solutions

LISTA SELECTION

With the **LISTA SELECTION** Xpress Delivery Program, you get our products shipped within just 2 to 3 days of your order. So instead of waiting, you're working! The program includes a selection of our most popular, fastest-moving products, ready when you need them. Place your order today and get the right solution, right away.

FOR PRICING AND TO ORDER:

- Visit our website at www.listaxpress.com
- Call Lista Customer Service at 800-722-3020
- Contact your local Lista distributor

Of course, Lista also offers complete solutions for all your storage and workspace needs beyond what's available for order in this catalog. We have countless other options to meet your requirements – see pages 21-31, or visit our website at www.listaintl.com.

THE REMARKABLE LISTA DRAWER – OUR OPENING ATTRACTION.

The Lista drawer is the centerpiece of Lista storage and workspace solutions. Lista drawers:

- Provide complete organization of tools, components or instrumentation, right at the point of use
- Maximize use of cubic capacity for improved space utilization
- Can be subdivided to create custom compartments
- Are designed for maximum stability, providing decades of functionality and ease of use

WORKSPACE SOLUTIONS

STORAGE PRODUCTS

MANY APPLICATIONS. MANY SOLUTIONS.

Lista offers a variety of modular drawer storage cabinets that perfectly suit a wide range of industries, environments and applications. Lista cabinets allow maximum use of cubic space for the highest density storage.

Stacked Lista cabinets provide for maximum flexibility in storage. Shelf cabinets can be ordered open, or with a variety of door styles to protect contents, while drawer storage cabinets offer storage for smaller items.

Lista cabinets can be combined with counter tops in a choice of materials for a practical, high density work area. When paired with Lista's overhead storage cabinets, items in a wide variety of sizes and shapes can be conveniently stored in close proximity.

Mobile cabinets afford the ultimate in flexibility and convenience. Almost any Lista drawer cabinet can be outfitted with casters to allow technicians to bring tools and parts directly to repair sites, increasing flexibility and efficiency.

Durable, secure Lista Selection cabinets are designed to provide years of safe, convenient storage and problem-free operation. Our cabinets:

- Provide the highest density storage, reducing the footprint needed for storage by as much as 50%
 - Provide maximum weight-bearing capacity, organization and access
 - Feature all the benefits of our unique, infinitely customizable drawer
- Offer the flexibility to adapt to your future requirements
 - Can be stacked for even greater storage density in the same footprint
 - Allow keyed-alike cabinet groupings to be created. Our removable core locks can be switched in the field for both keyed-alike and master key systems. Contact Lista Customer Service at **800-722-3020** for further information.

NEW! Some models now also available in **Light Gray!**

Feature: Lockable cabinets

Benefit: Safety, security, reduced shrinkage

All cabinets come with individual lock and 2 keys. Lock cores can be exchanged in the field for both keyed-alike and master key systems.

Feature: Ergonomic handles

Benefit: Improved safety, appearance and ergonomics

When drawers are closed, handles are flush with housing so nothing protrudes. Drawer handles are full width, and are located at top of drawer.

Feature: Hinged label holders

Benefit: Easy labeling of drawer contents

Drawer handles are covered with clear hinged covers for display of drawer labels. Handles and label holders run full width of drawer front for fast, easy identification, retrieval and inventory control. Create customized labels with free Lista Script software.

Feature: 100% full extension drawers

Benefit: Easy access and full use of the furthest corners of storage

Continuous smooth extension even with a full load.

Feature: Drawer dividers with ability to add labeling

Benefit: Fast, accurate identification of compartment contents and easier inventory control

Angled tops allow easy identification of contents, and can accommodate Lista Script labels, as well as most bar code labels. Dividers can be fastened to drawer bottom for mobile applications.

Feature: PrevenTip® interlock system

Benefit: Added safety and security

Unique, patented drawer locking system ensures that when one drawer is extended, all other drawers are locked closed to prevent accidental tip-over.

Feature: Exclusive suspension system

Benefit: Durable, smooth, quiet operation

Lista's suspension system has been tested against the globally respected RAL-RG 614 standard. The drawers exceeded the required number of cycles at full load without diminished performance.

STORAGE SOLUTIONS Counter Height Cabinets

WORKSPACE SOLUTIONS

TECHNICAL ELECTRONIC FURNITURE

FLEXIBLE. CUSTOMIZABLE. DURABLE.

Lista technical electronic workstations and technical furniture offer a rich array of customizable features to suit any environment that requires a lighter duty workstation and/or access to electrical power. And they look good doing it.

Lista electronic workstations can be paired with the Nexus accessory system and mobile cabinets to suit a variety of technical applications.

Lista technical furniture is perfect for large work areas, including classrooms.

An alternative to a drawer cabinet pedestal is a hanging cabinet, offering drawer storage off the floor.

Lista Selection technical electronic workstations are designed to deliver durability, versatility and productivity. Our workstations:

- Are constructed from the highest quality materials – sturdy, secure and built to last
- Are available with a range of cabinet pedestals and/or legs for support
- Feature cabinet pedestals with drawers that are subdivided to create custom compartments for maximum organization of tools, components and instrumentation
- Allow you to build up from the worksurface with a choice of riser shelves, or add accessories with the Nexus Accessory System

NEW! All technical bench models now available in **Light Gray** and with **butcher block** worksurfaces!

Feature: Wide selection of above-worksurface accessories

Benefit: Greater productivity and efficiency

Create task-specific configurations.

Feature: Electrical power supply

Benefit: Easy access to electricity

Multiple outlets available on instrument risers and Nexus Accessory System kits.

Feature: Choice of worksurfaces

Benefit: Surface always appropriate to application

Durable worksurfaces come in 60" and 72" lengths, in a choice of plastic laminate or butcher block.

Feature: Ergonomic handles

Benefit: Improves safety, appearance and ergonomics

When drawers are closed, handles are flush with housing so nothing protrudes. Drawer handles are located at top of drawer.

Feature: Customizable drawer compartments

Benefit: Better organization, faster retrieval

All drawers are provided with partitioned compartments.

Feature: Choice of pedestal and leg supports

Benefit: Customized to your needs

Variety of workbench support options.

Feature: Leveling glides

Benefit: Stable workstation, even on uneven floors

Two inch square tubular panel legs include glides with 1" of adjustment.

TECHNICAL FURNITURE Pre-Configured Workstations

WORKSPACE SOLUTIONS

INDUSTRIAL WORKBENCHES

HEAVY-DUTY PERFORMANCE WITH EXCEPTIONAL VERSATILITY.

Built for rugged durability, Lista industrial workbenches stand up to the harshest work environments. With their flexible selection of standard components and cost-effective custom configurations, our industrial workbenches are ready to conquer whatever challenges you throw at them.

A variety of above-worksurface shelves, back stops and panels enables users to customize storage to best suit their needs. Cabinet pedestals with full-extension drawers are perfect for storing a range of tools, parts and instruments close at hand.

The Nexus Accessory System offers a large variety of above-worksurface accessories to suit almost any task. Choose from such accessories as task lighting, pegboard and louvered panels for holding tools and parts, overhead cabinets for the storage of supplies, books and binders, monitor holders, and more.

Lista Selection industrial workbenches are designed to deliver durability, versatility and productivity. Our workbenches:

- Are constructed from the highest quality materials – sturdy, secure and built to last
- Offer a choice of either pre-configured or build-your-own models, to exactly suit your needs
- Incorporate ergonomic design for easy, safe access with a minimum of stress and strain
- Are available with a range of cabinet pedestals and/or legs for support
- Feature cabinet pedestals with drawers that are subdivided to create custom compartments for maximum organization of tools, components and instrumentation
- Allow you to build up from the worksurface with a choice of riser shelves, or add accessories with the Nexus Accessory System

height adjustable in 1 1/2" increments from 12" to 18"

XSARS-60PT/BB

- 60" wide x 12" deep plastic laminate

XSARS-60BT/BB

- 60" wide x 12" deep butcher block

XSARS-72PT/BB

- 72" wide x 12" deep plastic laminate

XSARS-72BT/BB

- 72" wide x 12" deep butcher block

NEXUS ACCESSORY SYSTEM KIT

XSSMNX-60/2424/BB

- attaches to top of 60" worksurface
- 50 3/4" wide x 48" high above base: (2) 24" wide sections
- (2) 24" wide x 12" deep adjustable shelves, (1) 24" wide x 15" deep adjustable shelf
- (1) 24" wide x 30" high markerboard/tackboard
- (1) 24" wide x 18" high louvered panel
- (1) 24" wide back stop
- (1) 15 amp vertical power strip with 6 outlets, off/on switch and 6' cord
- color: Bright Blue

XSSMNX-60/2424/LG

- same as above but color is Light Gray

XSSMNX-72/3030/BB

- attaches to top of 72" worksurface
- 62 3/4" wide x 48" high above base: (2) 30" wide sections
- (2) 30" wide x 12" deep adjustable shelves, (1) 30" wide x 15" deep adjustable shelf
- (1) 30" wide x 30" high markerboard/tackboard
- (1) 30" wide x 18" high louvered panel
- (1) 30" wide back stop
- (1) 15 amp vertical power strip with 6 outlets, off/on switch and 6' cord
- color: Bright Blue

XSSMNX-72/3030/LG

- same as above but color is Light Gray

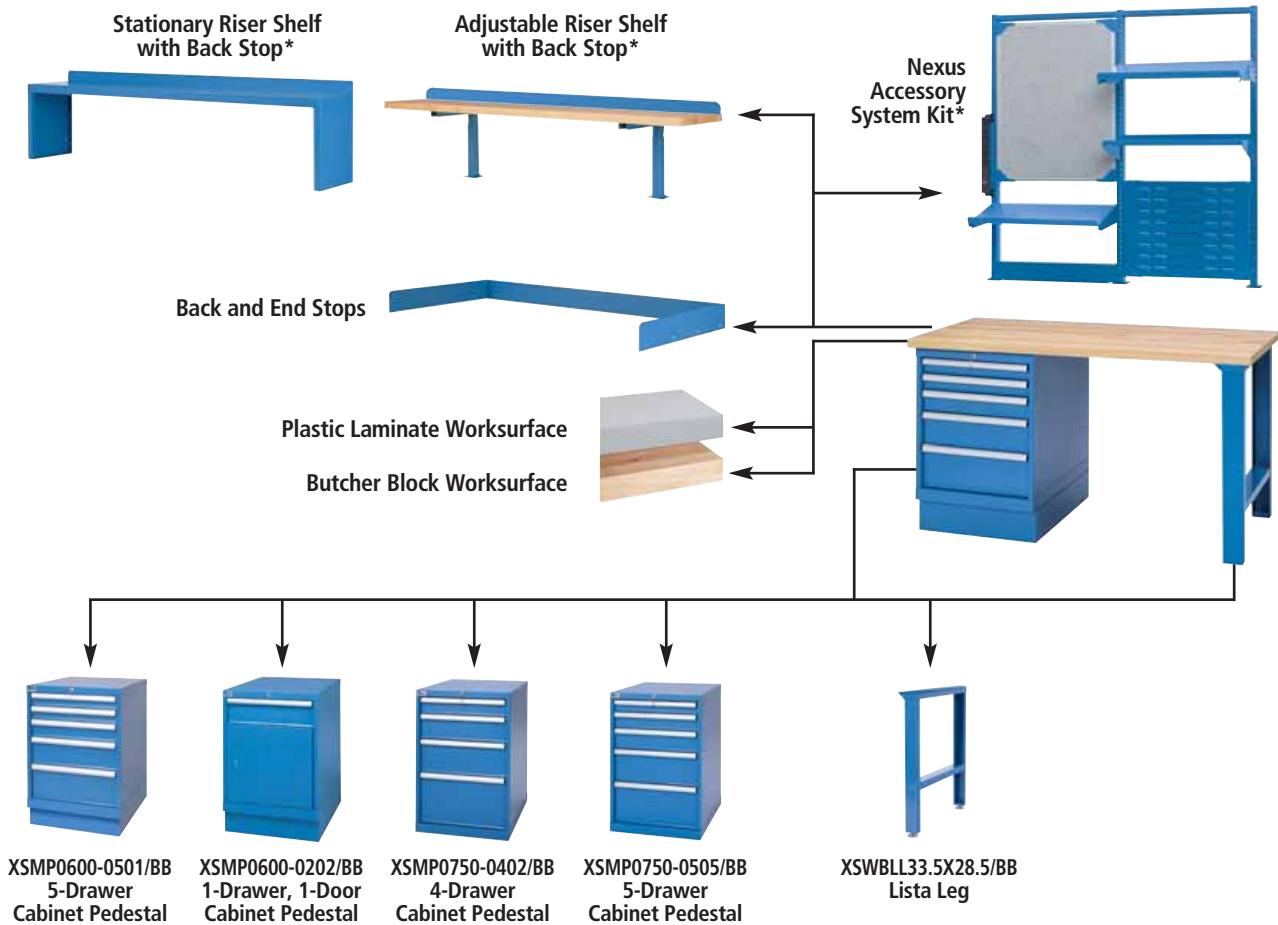

WORKBENCHES Build-Your-Own Industrial Benches

IN STOCK WITH XPRESS DELIVERY!

Versatile Lista Selection industrial workbenches can be ordered with a variety of configurations and accessories to suit your application or working environment.

For pre-configured industrial workbenches, see page 16.

- Build your own workbench to fit your needs – choose the components your application requires (see diagram below)
- Color: Bright Blue

**To order stationary riser shelf, adjustable riser shelf or Nexus accessory system kit, see page 17.*

- 60" wide x 30" deep x 1 3/4" thick
- square edge

XSBTOP-72

- 72" wide x 30" deep x 1 3/4" thick
- square edge

**also available with bullnose front edge – see page 13*

LISTA LEG

XSWBLL33.5X28.5/BB

- 33 1/2" high x 28 1/2" deep
- includes leveling glides

CABINET PEDESTALS

XSMP0600-0501/BB

- 22 3/16" wide x 28 1/2" deep x 33 1/2" high, including 6" base
- 5 drawers
- 53 drawer compartments
- includes individual removable core lock and 2 keys
- 165 lb. drawer capacity

XSMP0600-0202/BB

- 22 3/16" wide x 28 1/2" deep x 33 1/2" high, including 6" base
- 1 drawer
- 4 drawer compartments
- 1 compartment with bottom shelf and reversible door
- includes 2 keyed-alike removable core locks and 2 pairs of keys
- 165 lb. drawer capacity

XSMP0750-0402/BB

- 22 3/16" wide x 28 1/2" deep x 33 1/2" high
- 4 drawers
- 29 drawer compartments
- includes individual removable core lock and 2 keys
- 165 lb. drawer capacity

XSMP0750-0505/BB

- 22 3/16" wide x 28 1/2" deep x 33 1/2" high
- 5 drawers
- 41 drawer compartments
- includes individual removable core lock and 2 keys
- 165 lb. drawer capacity

WORKSPACE SOLUTIONS Computer Cabinets

IN STOCK WITH XPRESS DELIVERY!

Listra Selection computer cabinets are designed to protect valuable personal computer equipment.

- Fits most monitors up to 20"
- Pull-out keyboard tray locks out when in use
- Includes roll-out printer tray, built-in surge protector, 6-outlet power strip, air intake fan, rear access panel
- Includes 2 locks with 4 keyed-alike keys

XSCWS1350/GR

- 28 1/2" wide x 29 1/2" deep x 57 1/8" high
- no base
- color: Dark Gray

XSCWS1350-MB/BB

- 28 1/2" wide x 29 1/2" deep x 65 1/8" high
- 2 fixed and 2 swivel 6" x 2" casters
- color: Bright Blue

WORKSPACE SOLUTIONS Seating

IN STOCK WITH XPRESS DELIVERY!

Listra Selection seating is the perfect companion to a workbench or workstation. This chair features:

- Pneumatic seat height adjustments
- Single lever control
- Anatomically shaped seat with lumbar support for ergonomic comfort and safety
- Chrome ring footrest

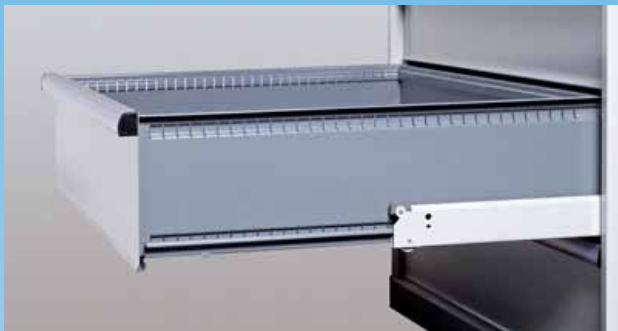

XSV79-3S-VA1/01

- seat height is 18"-26"
- hard floor casters
- SD mechanism
- high back
- adjustable T-arms
- color: black fabric

UNIQUE DRAWER CONSTRUCTION

UNEQUALED PERFORMANCE

Lista drawers set the standard in quality modular storage worldwide. They are constructed like no other competitive drawer. Their superior engineering and construction give them outstanding capacity and durability.

All our drawers and roll-out trays extend 100% from the cabinet housing, allowing easy, ergonomic access to the entire contents, even in the farthest corners.

Our six full-height sidewalls, as well as matching partition and divider heights, allow for optimal use of the system's cubic storage capacity. Items stored in the drawer won't fall out either the sides or the back of the drawer.

ONE-PIECE DRAWER FACE AND HANDLE

Lista's drawer front has an integral handle and is welded to the bottom of the drawer for added stability (shown to the right without handle end cap). No hardware is used to attach the drawer front or handle, resulting in superior durability and ergonomic safety.

SUSPENSION SYSTEM

Our exclusive suspension system incorporates a guide track, which wraps under the drawer body for additional stability and strength. This unique system features quiet Polyoxymethylene (POM) bearings, combining strength, hardness, dimensional stability, fatigue resistance, low wear and low friction, to give Lista drawers remarkably smooth, quiet operation.

DRAWER PERFORMANCE

When we say our drawers provide unequalled performance, we have the results to back that claim up.

To test our drawers, we chose the RAL-RG 614 standard from the German Institute of Quality Assurance and Marking, a globally respected standard. This test required our drawers to pass a series of difficult test criteria.

In these demanding tests, Lista excelled. Our suspensions exceeded the required number of cycles, fully loaded, without diminished performance.

STORAGE SOLUTIONS

APPOINT YOUR CABINET POSITION.

By taking advantage of Lista's wide array of cabinet footprints, heights, features and optional accessories, you can create a customized cabinet that ideally suits your specific storage needs.

CABINET FOOTPRINTS

Lista maximizes your workspace with cabinets in widths and depths to fit almost any footprint.

Lista's NW and MP Width cabinets make ideal workbench pedestals, are well suited for use as laboratory casework and can be adapted as mobile cabinets. Standard Width cabinets fit the needs of a wide range of installations and applications.

When you need to store tools and parts that are 24" in length or longer – or combine short and long items – our Mid-Width and Double Width cabinets are the perfect option.

Shallow-depth (CL, ST and HS Width) cabinets provide the ultimate in space savings and ergonomic design. High density storage capability with shallow footprint make them ideal for replacing shelves and maximizing floor space in narrow aisles.

Full Depth Cabinets

NW Width Cabinet
16 7/8" wide x 28 1/2" deep

MP Width Cabinet
22 3/16" wide x 28 1/2" deep

Standard Width Cabinet
28 1/4" wide x 28 1/2" deep

Mid-Width Cabinet
47" wide x 28 1/2" deep

Double Width Cabinet
56 1/2" wide x 28 1/2" deep

Shallow Depth Cabinets

CL Width Cabinet
22 3/16" wide x 22 1/2" deep

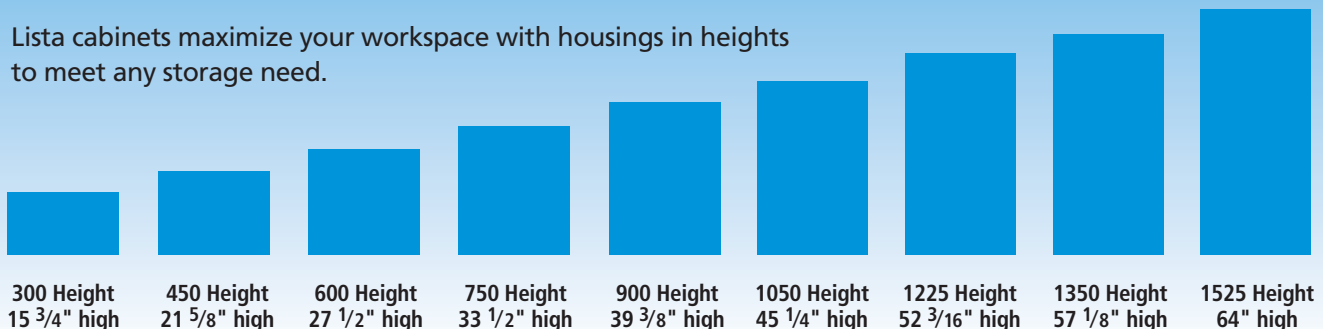

ST Width Cabinet
28 1/4" wide x 22 1/2" deep

HS Width Cabinet
40 1/4" wide x 22 1/2" deep

CABINET HEIGHTS

Lista cabinets maximize your workspace with housings in heights to meet any storage need.

MANY APPLICATIONS. MANY SOLUTIONS.

Lista offers a variety of modular drawer storage cabinets that perfectly suit a wide range of industries, environments and applications. Lista cabinets allow maximum use of cubic space for the highest density storage.

Stacked Lista cabinets provide for maximum flexibility in storage. Shelf cabinets offer a variety of door styles to protect contents.

Lista cabinets can be stacked as many as three-high to serve as ideal mezzanine supports. With their all-steel construction, they help you maximize your floor space.

Mobile cabinets afford the ultimate in flexibility and convenience. Almost any Lista drawer cabinet can be outfitted with casters, increasing flexibility and efficiency.

MAKE ANY WORKSPACE WORK.

The combination of modular components such as drawers, roll-out trays, shelves and doors means you can store small and large parts together and have easy access to both.

It also means easily accommodating diverse items as your needs evolve.

In addition to full use of available ceiling height, Lista Storage Wall® systems give you maximum weight and cubic volume capacity. Their all-steel construction also supports mezzanine configurations.

Full- and shallow-depth footprint options are ideal for storing a variety of large and small items in areas where aisle and floor space is critical and vertical space will be utilized.

Choose from:

- Drawers to store small parts and components
- Roll-out trays for easy access to large, heavy items
- Shelves to handle larger items
- Doors for additional security and finished appearance

STORAGE WALL® FOOTPRINTS

Lista offers two different Storage Wall systems.

The full depth Storage Wall system is the ideal solution for easily accessible storage of a variety of large and small items. The shallow depth Storage Wall system excels where aisle and floor space is critical and vertical space can be utilized.

Standard Width Section
28 1/8" wide x 27 3/4" deep

Mid-Width Section
46 7/8" wide x 27 3/4" deep

Double Width Section
56 1/4" wide x 27 3/4" deep

ST Width Shallow Depth Section
28 1/8" wide x 21 3/4" deep

HS Width Shallow Depth Section
40 5/32" wide x 21 3/4" deep

BETWEEN A WALL AND A HARD SPACE.

You won't find a more efficient or versatile way to add storage and organization to satisfy your specific application. With the Lista Storage Wall® system, the biggest and smallest items can be stored near one another in a logical, easily accessible way. Unlike conventional shelving, not an inch of space is wasted.

Lista Storage Wall systems allow the use of the available height of your storage area (6 heights, ranging from 39 3/8" to 118 1/8"), turning formerly wasted space into active, productive storage.

Storage Wall systems can be ordered with a variety of door styles, including sliding, hinged and tambour doors, providing both security and protection of stored items from environmental dust and grime.

Storage and retrieval of extremely heavy items is made easier with Lista roll-out trays. Standard trays have a 440 lb. capacity; heavy-duty roll-out trays featuring a 770 lb. capacity are also available.

WORKSPACE SOLUTIONS

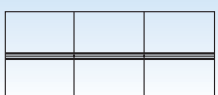

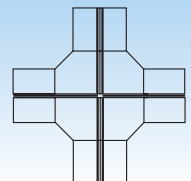

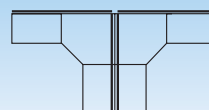

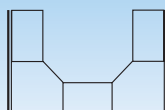

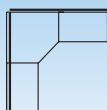

DURABLE, MODULAR AND FULLY-INTEGRATED SYSTEMS FOR PRODUCTIVE WORKSPACE.

With Arlink® 8000 workstations, you'll always get the exact workspace solution for your specific work demands. With their easy reconfigurability, Arlink 8000 workstations can be altered for multiple functions and changes in your workflow. This enduring adaptability means that you'll have a cost-effective solution for all of your assembly, repair and light manufacturing workstation needs. The full range of Arlink workstations shares many of the same components and accessories, expanding their usability and reducing your cost of ownership.

- Unique column design provides a sturdy, flexible backbone for evolving needs
- Reconfiguration without tools offers the industry's fastest and simplest set up
- Customizable for a range of uses at a lower cost than other workstations
- Ergonomic design eliminates wasted motion and minimizes fatigue and strain
- Accessories attach via the unique Definite Positioning System® (DPS)
- Choose optional shelves, panels, lighting and electrical accessories

NUMEROUS POSSIBLE CONFIGURATIONS

Configure your workstations to suit your needs today, and as future needs evolve.

VERSATILE, CONFIGURABLE SOLUTIONS STREAMLINE WORKFLOW.

Arlink 8000 workstations allow the use of a wide family of components and accessories, expanding the utility and flexibility of your investment.

Custom Products & Services, Inc. 
6140 Claude Way E.,
Inver Grove Hts., MN. 55076

E-Mail: info@custom-products.com
Website: www.custom-products.com

Arlink 8000 workstations can use both sides of the supporting columns to form a wide variety of arrangements. Workstations can be arranged back-to-back for even greater flexibility.

Arlink 8000 workstations are easily repositioned into different configurations as your needs and workflow change and evolve. The ability to easily add a mobile base means even greater flexibility for quick configuration changes.

Arlink 8000 system steel shelves can hold up to 300 lbs. each, making them ideally suited for test and repair areas.

WORKSPACE SOLUTIONS

ERGONOMIC COMFORT, FLEXIBLE FUNCTIONALITY AND ENHANCED PRODUCTIVITY.

Designed with the user in mind, Align® adjustable height workstations feature an adjustable worksurface height range from 27" to 42" that allows quick and easy alignment for different tasks or operator preference. This flexibility helps reduce fatigue, stress and the potential for injury, and creates a workspace with unsurpassed ergonomic comfort and flexible functionality, all designed to increase user productivity. Ideal for repairing, testing and assembling mechanical and electronic products and components.

- Adjustable height allows the perfect ergonomic alignment for each operator
- Center- or rear-justified configurations accommodate multiple simultaneous users
- Precision drive system for maintenance-free reliability
- High load capacity of 1000 lbs. dynamic for motorized base and 500 lbs. dynamic for hand crank base
- Accepts the full range of Lista workstation accessories to suit your exact tasks
- Optional casters allow easy reconfiguration, cleaning

NUMEROUS HEIGHT ADJUSTMENT CHOICES

Adjust worksurface height from 27" to 42"

Choose from motorized, hand crank or slide leg bases

UNSURPASSED ERGONOMIC COMFORT. FLEXIBLE FUNCTIONALITY.

Repetitive motion injuries and other work-related musculoskeletal conditions can be avoided using ergonomic products to minimize the risk of injuries as well as optimize production throughput. The height-adjustability of the Align® workstation can be the answer to these problems.

When paired with the Nexus Accessory System, Align workstations offer the ability to keep tools, supplies and parts off the worksurface, freeing space for the task at hand.

Bins stored on Nexus system shelves are much more efficient than having bins stored on the worksurface. This system allows for automatic re-supply, meaning if one bin empties, there is another bin right behind it that is full of the same part.

The easy height-adjustability of Align workstations gives each employee the ability to custom-adjust the worksurface height to best suit their individual needs.

WORKSPACE SOLUTIONS Overhead Cabinets

THE HEIGHT OF CONVENIENT STORAGE.

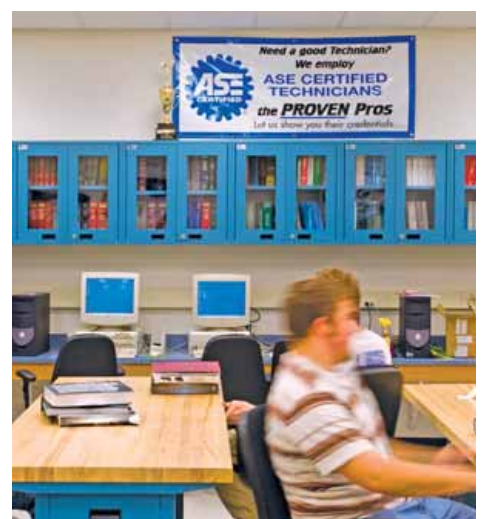

Ideal companions to Lista's modular drawer storage cabinets, overhead cabinets bring organization to the storage of binders, bulk storage or any items that require constant access, ample room and safe, logical, easily accessible storage.

An overhead cabinet with retractable door provides convenient bulk storage above a drawer cabinet in the machining area of an aircraft repair facility.

Overhead cabinets bring organized, efficient storage of instruction manuals, binders and other reference books.

Overhead cabinets with steel-framed plexiglas doors hold an array of books, manuals and binders in this classroom.

SECURE, ORGANIZED STORAGE OF VALUABLE TOOLING.

From the smallest shop to the largest machining operation, Lista can economically provide everything you need for safe and efficient storage of valuable tools. With our many different CNC tool storage products and accessories, Lista provides an efficient, organized and secure link among all the various stages of tool storage, transport and use.

Lista CNC tool transporters safely deliver tools directly to the work area.

Sliding door machine tool cabinets with butcher block tops provide both complete protection for tooling and a highly functional worksurface.

The Lista Storage Wall® System is used to store a variety of different-sized CNC tooling, maximizing floorspace while providing safe, secure and completely organized CNC storage.

LISTA Free Survey and Design Services

Lista's engineering and design team is ready to provide you with a detailed plan for your individual workspace and storage needs, **free of charge**.

We offer solutions that are designed for maximum efficiency and future flexibility, optimizing space and profitability.

- **Floorspace utilization analysis.** We can prepare plan and elevation CAD drawings for a grouping of products, or entire room-sized solutions.
- **Customized surveys and layouts.** Lista experts will survey your current and future storage and workspace needs, and propose solutions that provide the highest density and greatest productivity.
- **Integration with architectural and construction planning.** Rely on our experience with coordinating with architectural and construction professionals at any stage of a project's development.
- **Price quotes.** We are happy to provide free estimates and price quotes for any project, regardless of size.
